

The 2023 deck, as pitched. Eight of fifteen slides.

Omitted on purpose: pricing, a client testimonial, market-size estimates, financial projections, the investment ask, the team slide, and a partnership slide that described targets rather than signed partners.

The deck says "AI-powered". The conversation layer at the time was a rule-based workflow that grew to 120+ branches, then in-house NLU models trained on transcripts from captured buyer conversations, built by the internal team. The accurate technical account is at thesidebiz.github.io/sorouseh-portfolio/work/side-io.html

Side.

Empowering Real Estate Agents with AI-Powered Pre-Construction Sales Platform

Pitch Deck

Side.

Side is an innovative AI-powered platform that is transforming the pre-construction real estate market.

Harnessing the power of artificial intelligence, Side empowers real estate agents to elevate their sales strategies, streamline operations, and maximize their revenue potential.

01

Using advanced algorithms and machine learning, we empower agents to streamline operations, elevate sales strategies, and maximize revenue potential.

Join us as we reshape the future of pre-construction sales and unlock unparalleled opportunities for agents.

Side.

Capturing the Growing Demand for Pre-Construction Homes

Limited agent access to potential buyers in the pre-construction market creates a significant opportunity.

With the demand for new homes rising, Side addresses this challenge by providing agents with innovative AI tools to expand their reach and tap into untapped potential.

Side.

Pain Points

Overcoming Agent Limitations in Pre-Construction Sales

Agents face challenges in marketing and selling pre-construction homes. Side's platform addresses these pain points by:

01

Automating Lead Generation

02

Lead Nurturing

03

Transactions

Agents save time, enhance efficiency, and unlock new revenue streams, positioning themselves as industry leaders.

Side.

Solution

AI-Powered Tools for Pre- Construction Sales Success

Side's AI platform revolutionizes pre-construction sales

SOLUTION 01

Lead Generation

AI-driven lead generation expands agent reach.

SOLUTION 02

Lead Qualification

Automated lead qualification saves time and resources.

SOLUTION 03

Personalized Marketing Automation

Tailored content and automated nurturing increase conversions.

SOLUTION 04

Seamless Transaction Management

Efficient contract generation and digital processes streamline transactions.

Side.

Value Proposition

Elevating Agent Success with Side

01

Exclusive Access to Pre-Construction Projects

Side provides agents with exclusive access to a diverse range of pre-construction projects, expanding their portfolio and market reach.

02

AI-Generated Websites and Lead Generation

Side's advanced AI technology generates visually stunning agent-branded websites for each pre-sale project, capturing leads and driving conversions.

03

Enhanced Lead Qualification

Side's AI-powered platform leverages advanced algorithms and conversational AI to qualify leads, ensuring agents focus on high-potential prospects and optimize their time and resources.

04

Streamlined Operations and Revenue Growth

By automating time-consuming tasks and streamlining transactions, Side empowers agents to maximize revenue opportunities and focus on revenue-generating activities.

Side.

Business Model and Revenue Generation

Sustainable Revenue Model for Long-Term Success

Subscription-Based Revenue Model

Side operates on a subscription-based revenue model, providing agents with access to a comprehensive suite of AI-powered tools for a fixed monthly fee. This ensures predictable and recurring revenue streams for sustained growth and profitability.

Side.

Our Vision:

Empowering real estate agents with AI technology to revolutionize pre-construction sales.

Our Mission:

We create AI tools to enhance agent productivity, streamline operations, and maximize revenue, bridging technology and real estate for exceptional service.
